Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

On October 19, 2006, an Office Action was sent to the Applicant rejecting claims 1-30. On April 23, 2007, the Applicant responded with arguments.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-16 and 20-30 are rejected under 35 U.S.C. 102(e) as being anticipated by Merel (6,006,194), as set forth in the previous Office Action.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 17-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Merel in view of Shoham (6,285,989), as set forth in the previous Office Action.

Response to Arguments

Applicant's arguments filed April 23, 2007 have been fully considered but they are not persuasive. The Applicant argues that Merel does not disclose "determining participation of bidders from the first set of bidders in the second auction round"; "determining that a bidder may participate in a second auction round if that bidder has not been awarded a contract in a first auction round"; "determining that a bidder may participate in a second auction round if the bidder is a leading bidder in a first auction round"; and "limiting participation of bidders in a second auction round based on the occurrence in the first auction round". In response, Merel discloses "determining participation of bidders from the first set of bidders in the second auction round" (The new term is declared with the leading preferences of the various auctions of the prior term having effect in the new term—col.10, lines 5-8. Thus, the bidders participating in first round are used to determine the bidders in the second round); "determining that a bidder may participate in a second auction round if that bidder has not been awarded a contract in a first auction round" (The bidders continue on to the next rounds until a winner is declared or the term ends—col.10, lines 5-8); "determining that a bidder may participate in a second auction round if the bidder is a leading bidder in a first auction round" (The bidders are ranked to determine who the winner of the term will be—col.3, lines 28-45 and col.10, lines 1-10); and "limiting participation of bidders in a second auction round based on the occurrence in the first auction round" (The participants continue on until a winner is determined. If not winner, then the auction continues until a winner emerges or the term ends (col.3, lines 28-45 and col.10, lines 1-50).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
